OFFICE OF LEGISLATIVE COUNSEL

Monday - 13 March 1967

25X1

1. [REDACTED] Talked with Senator Henry M. Jackson giving him a copy of the UPI item quoting Senator Thurmond on the Agency. Senator Jackson expressed his concern about this and indicated he was going to discuss it further with Senator Russell.

Additionally, Senator Jackson stated he would very much like to come out to the Agency for a detailed briefing on the internal Agency organization. He further stated that he thought at some point possibly a smaller group of the Subcommittee could review with the Agency the various organizations with which we are working.

At the request of Senator Jackson, I furnished to Dorothy Fosdick some unclassified figures on calendar 1966 GNP on Russia, Communist China and East European satellites.

4. [REDACTED] Talked with Vince Augliere, Subcommittee on Foreign Operations and Government Information staff, responding to his queries indicating that there is no documentation to support that Amelia Earhart was on an intelligence task at the time of her disappearance.

5. [REDACTED] Delivered to Representative Carl Perkins, (D., Ky.) Chairman, House Committee on Education and Labor, a background study on communist worldwide fronts. Perkins leafed through the study and appeared to be satisfied with its content. I noted to Mr. Perkins that I would like to ask his cooperation in seeing that this study is not published in any form. He immediately responded that we need have no fears of this, that he would see that it is not published. I explained that publication could result in more publicity for the Agency which we would prefer to avoid. He understood perfectly and again assured me that the paper would not be published.
